

## **Safety Data Sheet**

Issue Date: 05-Jun-2014 Revision Date: 20-May-2015 Version 1

## 1. IDENTIFICATION

**Product Identifier** 

Product Name CARQUEST Premium Hi-Temp Disc Brake Wheel Bearing Grease

Other means of identification

**SDS #** CQ-037

Recommended use of the chemical and restrictions on use

Recommended Use Lubricant.

Details of the supplier of the safety data sheet

**Supplier Address** 

Warren Oil Company 915 E. Jefferson Ave. West Memphis, AR 72301

**Emergency Telephone Number** 

Company Phone Number 1-800-428-9284

Emergency Telephone (24 hr) CHEMTREC 1-800-424-9300 (North America) 1-703-527-3887 (International)

## 2. HAZARDS IDENTIFICATION

Appearance Amber semi-solid to solid Physical State Semi-solid to solid Odor Mild petroleum

Classification

| Skin corrosion/irritation         | Category 2 |
|-----------------------------------|------------|
| Serious eye damage/eye irritation | Category 2 |

#### **Hazards Not Otherwise Classified (HNOC)**

May be harmful if swallowed

# Signal Word Warning

## **Hazard Statements**

Causes skin irritation Causes serious eye irritation

#### **Precautionary Statements - Prevention**

Wash face, hands and any exposed skin thoroughly after handling Wear eye/face protection

Revision Date: 20-May-2015

## **Precautionary Statements - Response**

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing If eye irritation persists: Get medical advice/attention

IF ON SKIN: Wash with plenty of soap and water
Take off contaminated clothing and wash it before reuse

If skin irritation occurs: Get medical advice/attention

#### **Precautionary Statements - Disposal**

Dispose of contents/container to an approved waste disposal plant

#### **Unknown Acute Toxicity**

2.27% of the mixture consists of ingredient(s) of unknown toxicity

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name  | CAS No     | Weight-% |
|--|------------|----------|
| Severely Hydrotreated Heavy Naphthenic Petroleum Oil | 64742-52-5 | 60-70    |
| Residual oils (petroleum), solvent refined           | 64742-01-4 | 1-10     |
| Antimony diamyldithiocarbamate                       | 15890-25-2 | 1-10     |
| Lithium Hydroxide Solution                           | 1310-66-3  | 1-10     |

<sup>\*\*</sup>If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.\*\*

## 4. FIRST-AID MEASURES

#### First Aid Measures

General Advice If exposed or concerned: Get medical advice/attention. Take proper precautions to ensure

your own health and safety before attempting rescue or providing first aid.

Eye Contact Check for and remove contact lenses. Flush eyes with cool, clean, low-pressure water

while occasionally lifting and lowering eyelids. Seek medical attention if excessive tearing,

redness or pain persists.

Skin Contact If burned by hot material, cool skin by quenching with large amounts of cool water. For

contact with product at ambient temperatures, remove contaminated shoes and clothing. Wipe off excess material. Wash exposed skin with mild soap and water. Seek medical attention if tissue appears damaged or if pain or irritation persists. Thoroughly clean contaminated clothing before reuse. Clean or discard contaminated leather goods. If

material is injected under the skin, seek medical attention immediately.

Inhalation Vaporization is not expected at ambient temperatures. This material is not expected to

cause inhalation-related disorders under anticipated conditions of use. In case of

overexposure, move the person to fresh air.

**Ingestion** Do not induce vomiting unless directed to by a physician. Rinse out mouth with water.

Never give anything by mouth to a person who is not fully conscious. Allow small quantities to pass through the digestive system. If large amounts are swallowed or irritation of

discomfort, seek medical attention immediately.

#### Most important symptoms and effects

**Symptoms** May be harmful if swallowed. Causes skin irritation. Causes serious eye irritation.

ol ease

#### Indication of any immediate medical attention and special treatment needed

**Notes to Physician** 

Skin: In the event of injection in underlying tissue, immediate treatment should include extensive incision, debridement and saline irrigation. Inadequate treatment can result in ischemia and gangrene. Early symptoms may be minimal. Ingestion: Check for possible bowel obstruction with ingestion of large quantities of material.

Revision Date: 20-May-2015

## 5. FIRE-FIGHTING MEASURES

#### **Suitable Extinguishing Media**

Use dry chemical, foam, carbon dioxide or water fog.

Unsuitable Extinguishing Media Not determined.

#### **Specific Hazards Arising from the Chemical**

Water or foam may cause frothing. Molten material can form flaming droplets if ignited. Use of water on product above 100°C (212°F) can cause product to expand with explosive force.

Hazardous Combustion Products Carbon dioxide, carbon monoxide, smoke, fumes, unburned hydrocarbons and oxides of sulfur, phosphorus, zinc and/ or nitrogen.

#### Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Carbon dioxide and inert gas can displace oxygen. Use caution when applying carbon dioxide or inert gas in confined spaces. Fight the fire from a safe distance in a protected location. Open any masses with a water stream to prevent reignition due to smoldering. Cool surface with water fog. Do not allow liquid runoff to enter sewers or public waters.

#### 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

Personal Precautions Take proper precautions to ensure your own health and safety before attempting spill

control or clean-up. For more specific information, refer to section 8. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Slipping hazard; do not walk through spilled material.

## Methods and material for containment and cleaning up

Methods for Containment Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewer,

basements or confined areas.

Methods for Clean-Up For small spills, absorb or cover with dry earth, sand or other inert non-combustible

absorbent material and place into waste containers for lateral disposal. Contain large spills to maximize product recovery or disposal. In urban areas, clean up spill as soon as possible. In natural environments, seek clean up advice from specialists to minimize

physical habitat damage.

## 7. HANDLING AND STORAGE

#### Precautions for safe handling

Advice on Safe Handling If this product is stored or applied in high-pressure systems such as grease guns or

hydraulic lines, there is the potential for accidental injection into the skin and underlying tissues. Empty containers may contain product residue that can ignite with explosive force. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose empty containers to heat,

Revision Date: 20-May-2015

sparks or open flames.

Conditions for safe storage, including any incompatibilities

**Storage Conditions** Keep containers tightly closed in a dry, cool and well-ventilated place.

**Incompatible Materials** Strong oxidizing agents.

#### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Exposure Guidelines**

| Chemical Name                          | ACGIH TLV                             | OSHA PEL                                | NIOSH IDLH                               |

| 25619-56-1                             | _                                     | (vacated) TWA: 0.5 mg/m <sup>3</sup> Ba | sulfate Ba                               |

#### **Appropriate engineering controls**

**Engineering Controls** Provide exhaust ventilation or other engineering controls to keep the airborne

concentrations of vapors below their respective threshold limit value. Ensure that eyewash

stations and safety showers are proximal to the work-station location.

#### Individual protection measures, such as personal protective equipment

**Eye/Face Protection** Wear safety glasses with side shields (or goggles).

**Skin and Body Protection** Chemical resistant, impermeable gloves. Long sleeve shirt and long pants. Aprons. Wear a

lab coat.

**Respiratory Protection** Ensure adequate ventilation, especially in confined areas. In case of inadequate ventilation

or risk of inhalation of vapors, use suitable respiratory equipment.

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

#### Information on basic physical and chemical properties

**Physical State** Semi-solid to solid

**Appearance** Amber semi-solid to solid Odor Mild petroleum **Odor Threshold** Color Amber Not determined

## 10. STABILITY AND REACTIVITY

#### Reactivity

Not reactive under normal conditions.

#### **Chemical Stability**

Stable under recommended storage conditions.

## **Possibility of Hazardous Reactions**

None under normal processing.

Hazardous Polymerization Not expected to occur.

#### **Conditions to Avoid**

Keep away from extreme heat, sparks, open flame and incompatible materials.

## **Incompatible Materials**

Strong oxidizing agents.

#### **Hazardous Decomposition Products**

Carbon dioxide, carbon monoxide, smoke, fumes, unburned hydrocarbons and oxides of sulfur, phosphorus, zinc and/ or nitrogen.

## 11. TOXICOLOGICAL INFORMATION

## Information on likely routes of exposure

**Product Information** 

**Eye Contact** Causes serious eye irritation.

**Skin Contact** Causes skin irritation.

**Inhalation** Do not inhale.

**Ingestion** May be harmful if swallowed.

Revision Date: 20-May-2015

## Information on physical, chemical and toxicological effects

**Symptoms** Please see section 4 of this SDS for symptoms.

## Delayed and immediate effects as well as chronic effects from short and long-term exposure

Carcinogenicity This product does not contain any carcinogens or potential carcinogens as listed by OSHA,

IARC or NTP.

**Numerical measures of toxicity** 

Not determined

**Unknown Acute Toxicity** 2.27% of the mixture consists of ingredient(s) of unknown toxicity.

## 12. ECOLOGICAL INFORMATION

## **Ecotoxicity**

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
